

Internet Explorer Security Settings

1. First, close all Internet Explorer sessions you have open.
2. Open up a new SACS session
3. Select the Tools menu option from the top menu bar

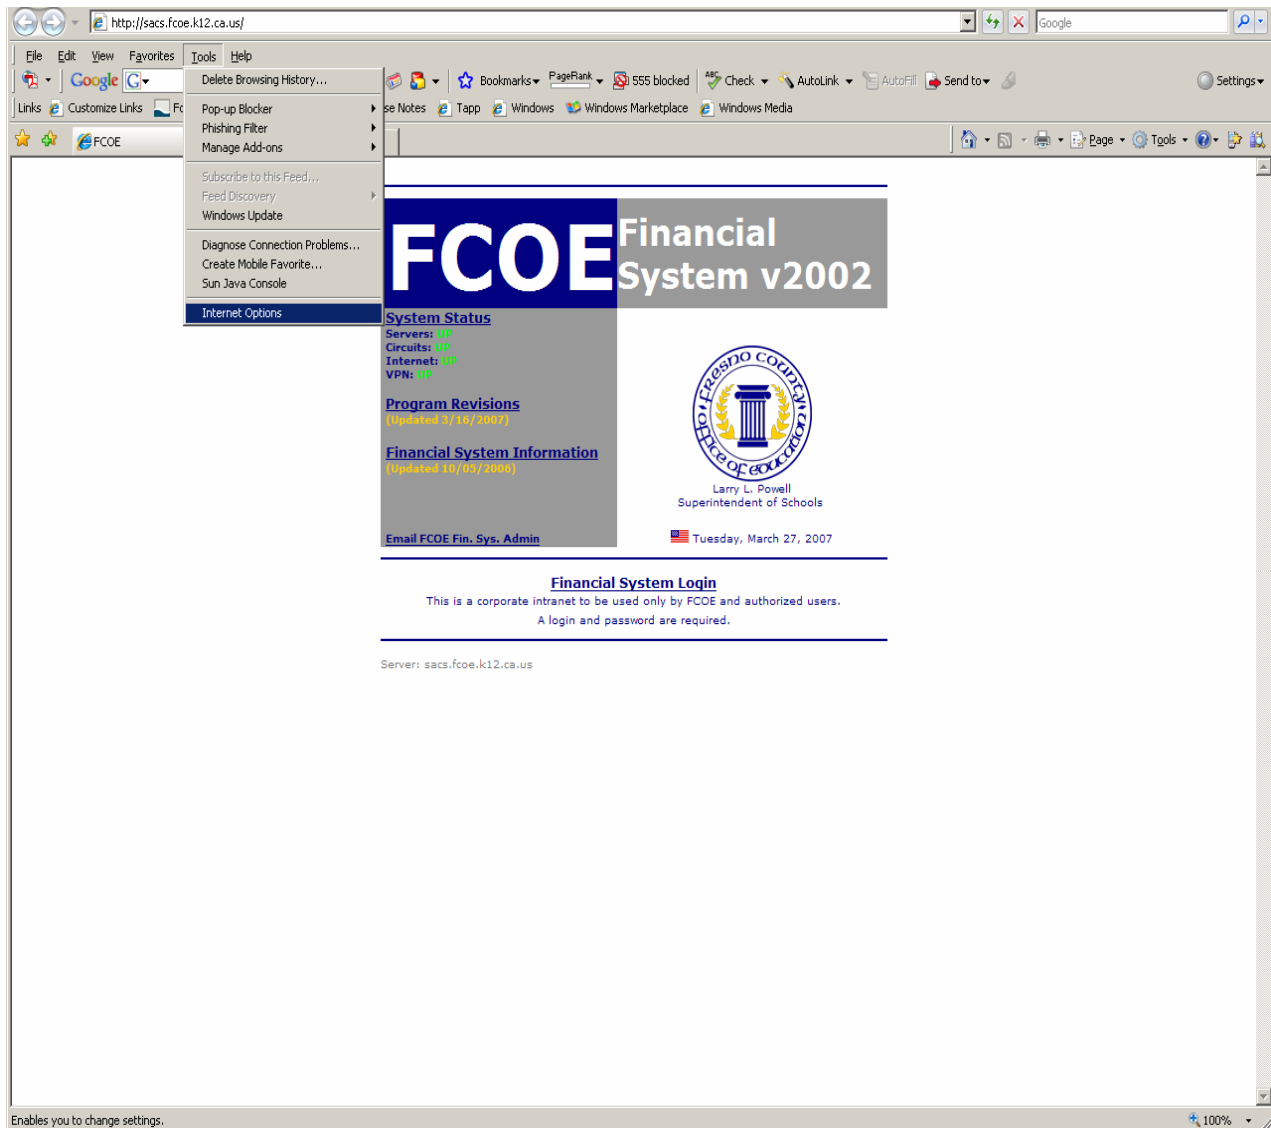

Illustration 1

4. Choose Internet Options from the Tools Menu.

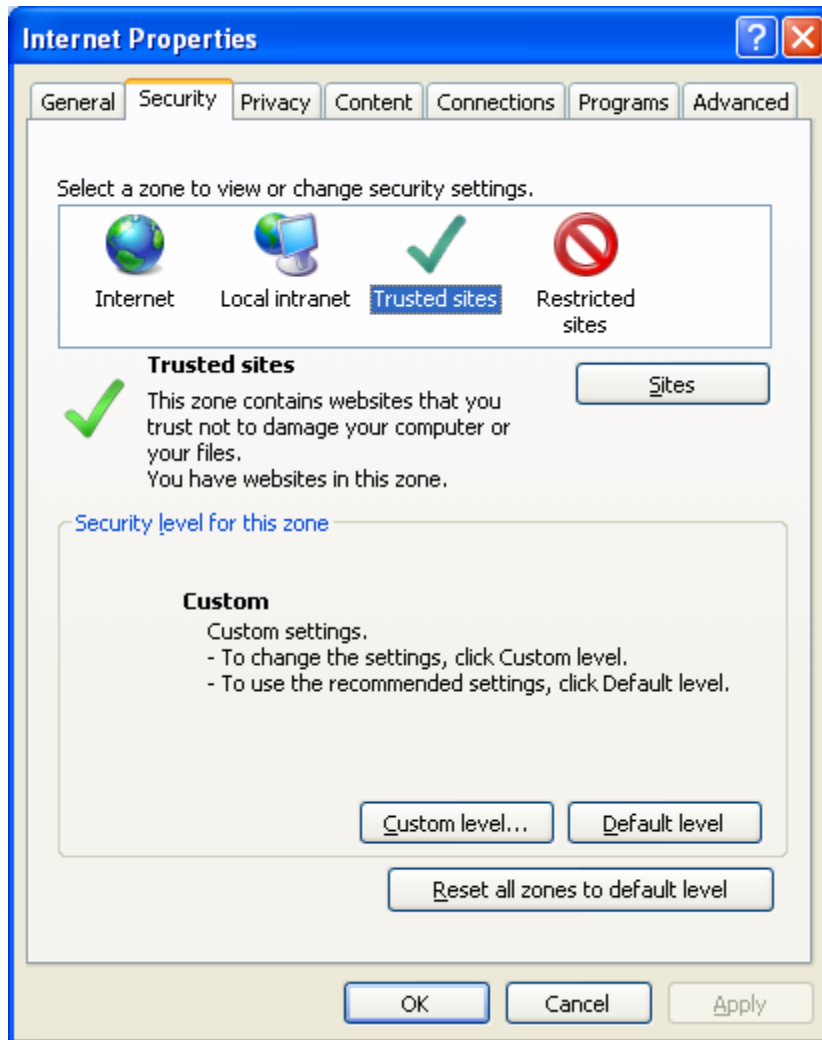

Illustration 2

5. Select the Security Tab
6. Left click once on the green Trusted Sites check in the 'Select a zone to view or change security settings' section.
7. Click the 'Sites' button on the upper-middle right-hand side.

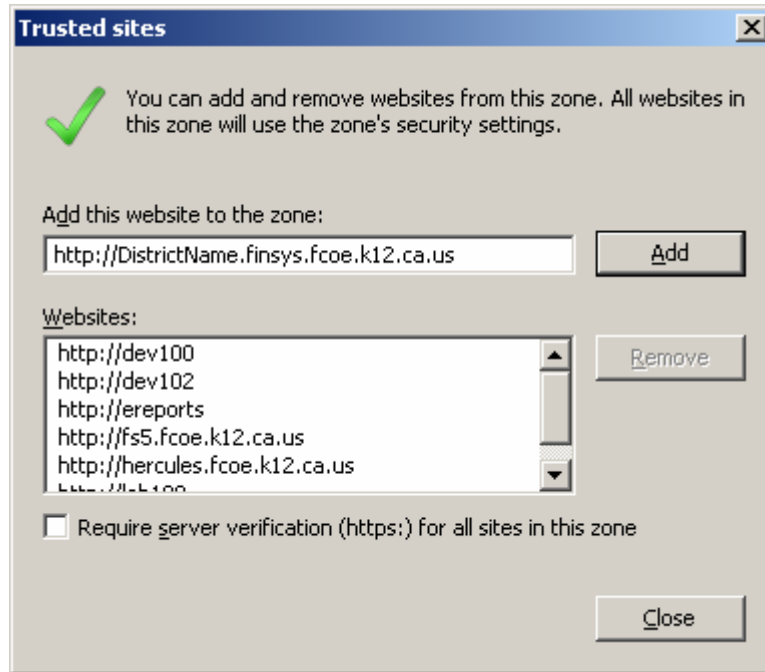

Illustration 3

8. Make sure that the “Require Server Verification (https:) for all sites in this zone” checkbox is **unchecked**.
9. If **http://yourdistrict.finsys.fcoe.k12.ca.us** displays in the “Add this website to the zone:” section click the ‘Add’ button.
10. Click the ‘Close’ button to return to the previous screen.

Illustration 4

11. Click the 'Custom Level' button in the Security Level for this Zone section.

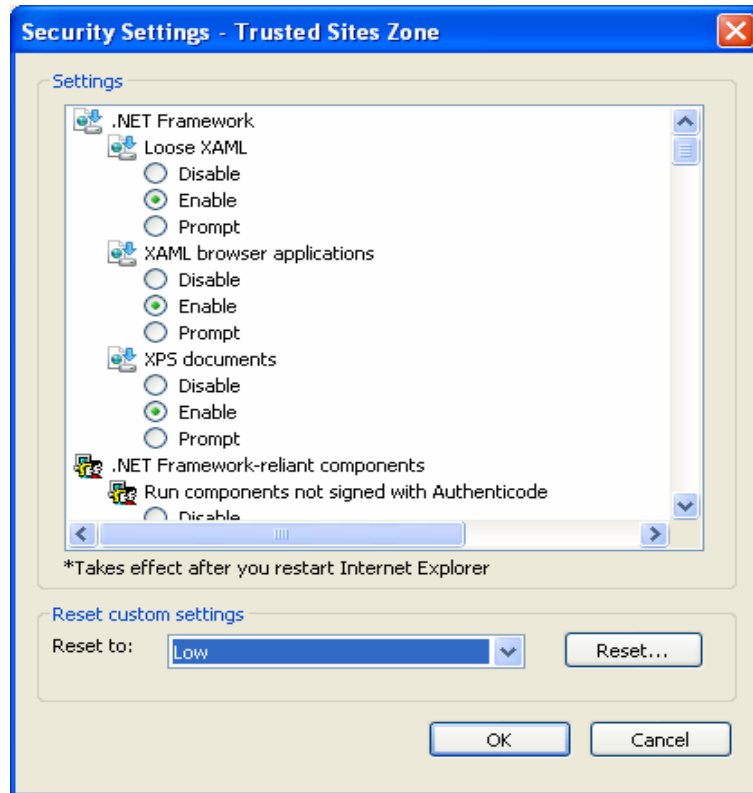

Illustration 5

12. In the 'Reset Custom Settings' section change the drop-down to Low, then click the 'Reset' button.

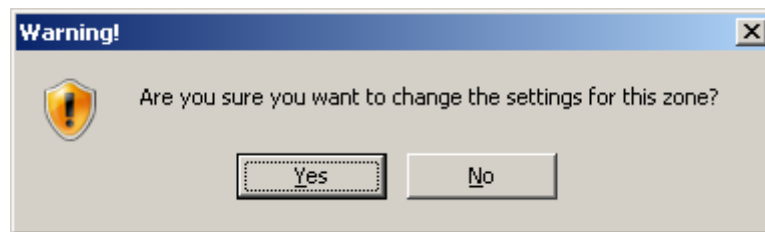

Illustration 6

13. Answer "Yes" when asked if you want to change the settings.
14. Click the 'OK' button twice.
15. Now log onto the SACS system as you normally would.

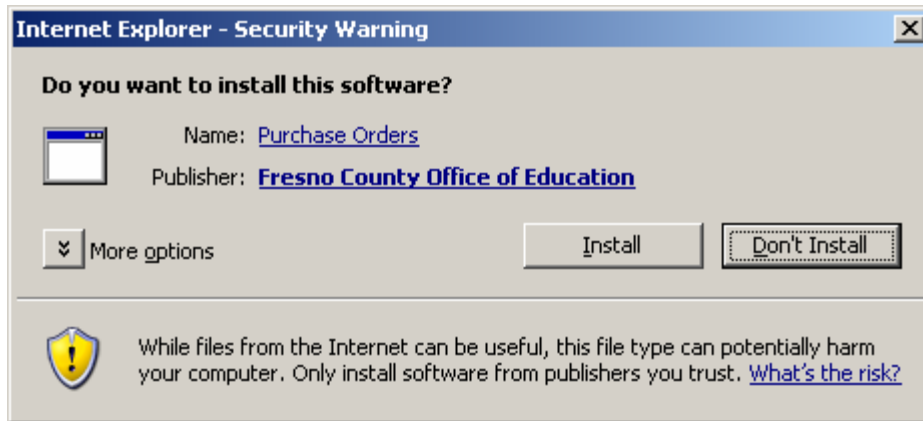

Illustration 7

16. Internet Explorer should now prompt you to download SACS applications. When you receive the prompt click the 'More options' down arrow button.

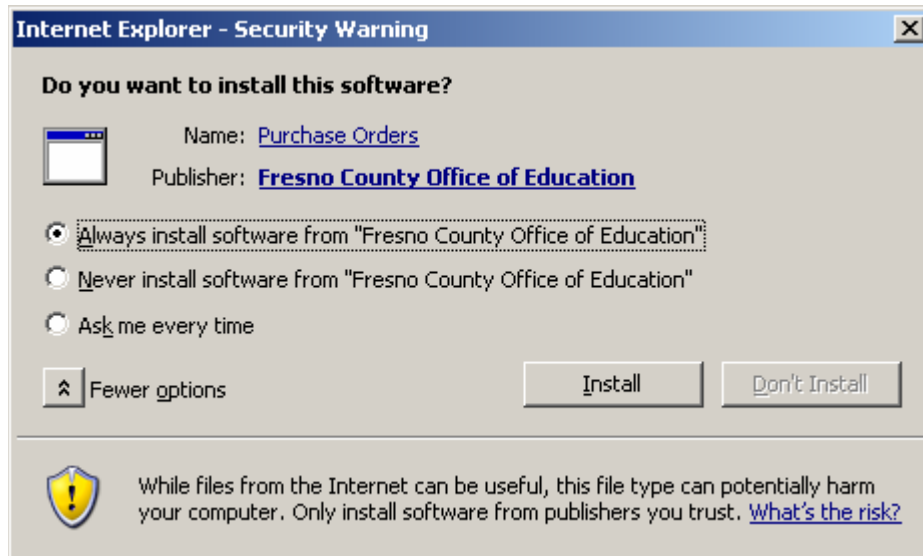

Illustration 8

17. Mark the radio button: Always install software from “Fresno County Office of Education” and click the ‘Install’ button.

If this procedure still produces the same results call 497-3724 and IS&T will provide a tech to walk you through some additional procedures.
